COVID-19 TELEHEALTH SUB-SECTION :: US OVERVIEW + POLICY DESCRIPTION

- Has not added prenatal coverage through telehealth
- Added prenatal coverage through telehealth

United States

COVID-19 Telehealth Benefits

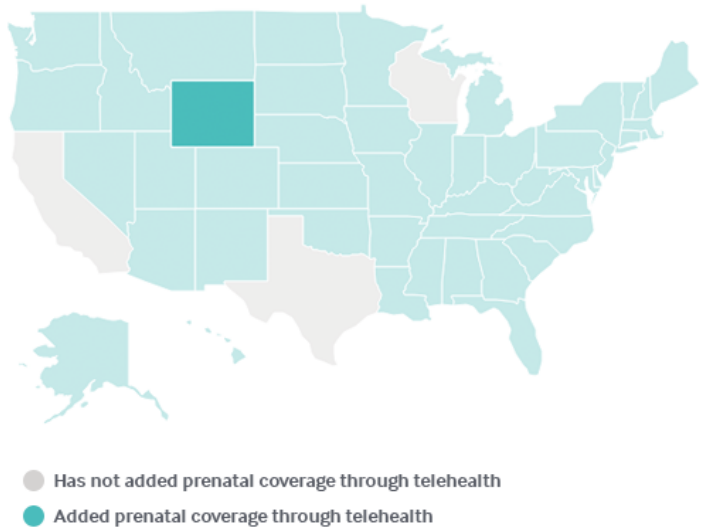

Many states added telehealth as a benefit for prenatal care within COVID-19 federal flexibilities. Some states have specified benefits for maternity care.

POLICY DESCRIPTION

Select a state on the map for more details.

Notes:
Under the Families First Coronavirus Response Act, Medicaid enrollees who typically lose coverage after 60 days postpartum cannot be disenrolled until the end of the month in which the public emergency period ends.

COVID-19 TELEHEALTH SUB-SECTION :: WYOMING SELECTED

Wyoming

COVID-19 Telehealth Benefits

Many states added telehealth as a benefit for prenatal care within COVID-19 federal flexibilities. Some states have specified benefits for maternity care.

POLICY DESCRIPTION

Wyoming has added prenatal coverage through telehealth during the COVID-19 public health response.

This coverage is temporary and remains in effect until the termination of the declared public health emergency.

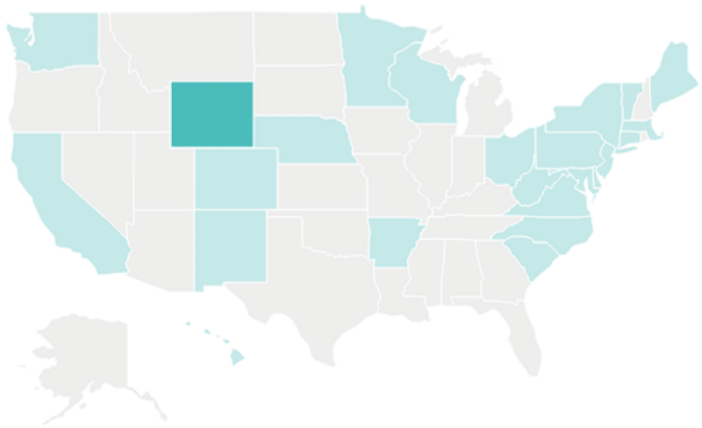

ADDITIONAL INFORMATION

Maternity care not specified. Any services that are clinically appropriate may be billed via Telehealth.

Notes:

Under the Families First Coronavirus Response Act, Medicaid enrollees who typically lose coverage after 60 days postpartum cannot be disenrolled until the end of the month in which the public emergency period ends.

IMMIGRANT 5-YEAR WAIVER SUB-SECTION :: WYOMING SELECTED

- Has not waived the 5-year waiting period
- Waived the 5-year waiting period

Wyoming

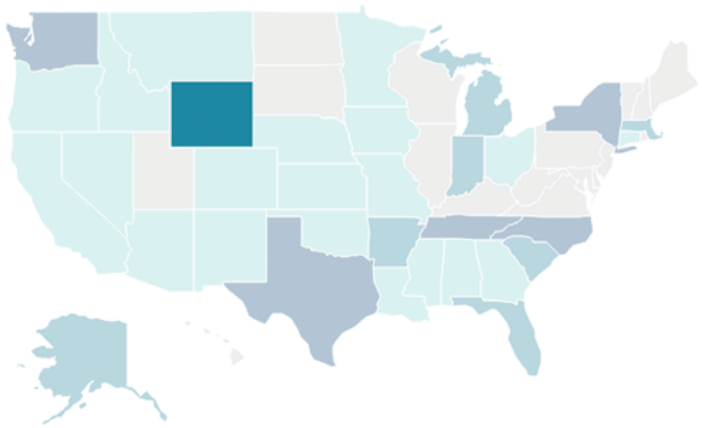

Immigrant 5-year Waiver

Some states are waiving the requirement for pregnant immigrants to lawfully reside for five years before Medicaid eligibility. In general, permanent resident immigrants (green card holders) are eligible for Medicaid and CHIP after five years of residence on the same basis as U.S. citizens and must meet all other program requirements.

POLICY DESCRIPTION

Wyoming provides Medicaid coverage to eligible lawfully residing pregnant women without a five-year waiting period.

DATE EFFECTIVE:
October 1, 2009

- Has not implemented any payment reform actions
- Implemented 1 payment reform action
- Implemented 2 payment reform actions
- Implemented 3 payment reform actions

Wyoming

Payment Reform

Many states are adjusting financial incentives for providers to improve maternal health outcomes. Payment initiatives are used to reduce poor outcomes and increase access to pregnancy related and post-partum care.

POLICY DESCRIPTION

Wyoming as adopted the following payment reforms:

- Bundled payments for maternity episode of care
- Reduced payment or nonpayment for nonmedically indicated procedures
